ANNEX TO THE EGYPT-ISRAEL AGREEMENT

Within five days after the signature of the Egypt-Israel Agreement, representatives of the two parties shall meet in the military working group of the Middle East peace conference at Geneva to begin preparation of a detailed Protocol for the implementation of the Agreement. The working group will complete the Protocol within two weeks. In order to facilitate preparation of the Protocol and implementation of the agreement, and to assist
in maintaining the scrupulous observance of the cease-fire and other elements of the Agreement, the two parties have agreed on the following principles, which are an integral part of the Agreement, as guidelines for the working group.

1. DEFINITIONS OF LINES AND AREAS

The deployment lines, areas of limited forces and armaments, buffer zones, the area south from line E and west from line M, other designated areas, road sections for common use and other features referred to in article IV of the Agreement shall be as indicated on the attached map (1:100,000 - United States edition).

2. BUFFER ZONES

(A) Access to the buffer zones will be controlled by the United Nations Emergency Force, according to procedures to be worked out by the working group and the United Nations Emergency Force.

(B) Aircraft of either party will be permitted to fly freely up to the forward line of that party. Reconnaissance aircraft of either party may fly up to the middle line of the buffer zone between E and J on an agreed schedule.

(C) In the buffer zone, between lines E and J, there will be established under article IV of the Agreement an early warning system entrusted to United States civilian personnel as detailed in a separate proposal, which is a part of this Agreement.

(D) Authorized personnel shall have access to the buffer zone for transit to and from the early warning system; the manner in which this is carried out shall be worked out by the working group and the United Nations Emergency Force.

3. AREA SOUTH OF LINE E AND WEST OF LINE M

(A) In this area, the United Nations Emergency Force will assure that there are no military or para-military forces of any kind, military fortifications and military installations; it will establish checkpoints and have the freedom of movement necessary to perform this function.

(B) Egyptian civilians and third country civilian oil field personnel shall have the right to enter, exit from, work and live in the above indicated area, except for buffer zones 2A, 2B and the United Nations posts. Egyptian civilian police shall be allowed in the area to perform normal civil police functions among the civilian population in such number and with such weapons and equipment as shall be provided for in the Protocol.

(C) Entry to and exit from the area, by land, by air or by sea, shall be only through United Nations Emergency Force checkpoints. The United Nations Emergency Force shall also establish checkpoints along the road, the dividing line and at either points, with the precise locations and number to be included in the Protocol.

(D) Access to the airspace and the coastal area shall be limited to unarmed Egyptian civilian vessels and unarmed civilian helicopters and transport planes involved in the civilian activities of the area as agreed by the working group.

(E) Israel undertakes to leave intact all currently existing civilian installations and infrastructures.

(F) Procedures for use of the common sections of the coastal road along the Gulf of Suez shall be determined by the working group and detailed in the Protocol.
4. AERIAL SURVEILLANCE

There shall be a continuation of aerial reconnaissance missions by the United States over the areas covered by the Agreement (the area between lines F and K), following the same procedures already in practice. The missions will ordinarily be carried out at a frequency of one mission every 7-10 days, with either party or the United Nations Emergency Force empowered to request an earlier mission. The United States Government will make the mission results available expeditiously to Israel, Egypt and the chief coordinator of the United Nations peace-keeping missions in the Middle East.

5. LIMITATION OF FORCES AND ARMAMENTS

(A) Within the areas of limited forces and armaments (the areas between lines J and K and lines E and F) the major limitations shall be as follows:

(4) The total number of personnel shall not exceed eight thousand (8,000).

(B) Neither side will station nor locate any weapon in areas from which they can reach the line of the other side.

(6) Both parties agree that in the areas between line A (of the disengagement agreement of 18 January 1974) and line E they will construct no new fortifications or installations for forces of a size greater than that agreed herein.

(B) The major limitations beyond the areas of limited forces and armaments will be:

(1) Neither side will station nor locate any weapon in areas from which they can reach the other line.

(2) The parties will not place anti-aircraft missiles within an area of ten (10) kilometres east of line K and west of line F, respectively.

6. PROCESS OF IMPLEMENTATION

The detailed implementation and timing of the redeployment of forces, turnover of oil fields, and other arrangements called for by the Agreement, annex and Protocol shall be determined by the working group, which will agree on the stages of this process, including the phased movement of Egyptian troops to line E and Israeli troops to line J. The first phase will be the transfer of the oil fields and installations to Egypt. This process will begin within two weeks from the signature of the Protocol with the introduction of the necessary technicians, and it will be completed no later than eight weeks after it begins. The details of the phasing will be worked out in the military working group.
Implementation of the redeployment shall be completed within five months after
signature of the Protocol.

PROPOSAL

In connection with the early warning system referred to in article IV of the Agreement
between Egypt and Israel concluded on this date and as an integral part of that
Agreement (hereafter referred to as the basic Agreement), the United States proposes
the following:

1. The early warning system to be established in accordance with article IV in the area
shown on the map attached to the basic agreement will be entrusted to the United
States. It shall have the following elements:

A. There shall be two surveillance stations to provide strategic early warning, one
operated by Egyptian and one operated by Israeli personnel. Their locations are shown
on the map attached to the basic Agreement. Each station shall be manned by not more
than 250 technical and administrative personnel. They shall perform the functions of
visual and electronic surveillance only within their stations.

B. In support of these stations, to provide tactical early warning and to verify access to
them, three watch stations shall be established by the United States in the Mitla and
Giddi Passes as will be shown on the map attached to the basic Agreement. These
stations shall be operated by United States civilian personnel. In support of these
stations, there shall be established three unmanned electronic sensor fields at both ends
of each Pass and in the general vicinity of each station and the roads leading to and from
those stations.

2. The United States civilian personnel shall perform the following duties in connexion
with the operation and maintenance of these stations.

A. At the two surveillance stations described in paragraph 1 A. above, United States
civilian personnel will verify the nature of the operations of the stations and all
movement into and out of each station and will immediately report any detected
divergency from its authorized role of visual and electronic surveillance to the parties to
the basic Agreement and to the United Nations Emergency Force.

B. At each watch station described in paragraph 1 B. above, the United States civilian
personnel will immediately report to the parties to the basic Agreement and to the United
Nations Emergency Force any movement of armed forces, other than the United Nations
Emergency Force, into either Pass and any observed preparations for such movement.

C. The total number of United States civilian personnel assigned to functions under this
proposal shall not exceed 200. Only civilian personnel shall be assigned to functions
under this proposal.

3. No arms shall be maintained at the stations and other facilities covered by this
proposal, except for small arms required for their protection.

4. The United States personnel serving the early warning system shall be allowed to
move freely within the area of the system.

5. The United States and its personnel shall be entitled to have such support facilities as
are reasonably necessary to perform their functions provided for in the United Nations

6. The United States personnel shall be immune from local criminal, civil, tax and
customs jurisdiction and may be accorded any other specific privileges and immunities provided for in the United Nations Emergency Force Agreement of 13 February 1957.

7. The United States affirms that it will continue to perform the functions described above for the duration of the basic Agreement.

8. Notwithstanding any other provision of this proposal, the United States may withdraw its personnel only if it concludes that their safety is jeopardized or that continuation of their role is no longer necessary. In the latter case the parties to the basic Agreement will be informed in advance in order to give them the opportunity to make alternative arrangements. If both parties to the basic Agreement request the United States to conclude its role under this proposal, the United States will consider such requests conclusive.

9. Technical problems including the location of the watch stations will be worked out through consultation with the United States.
